SKINNER DUMP

Trash from paper plant disposed of here. No evidence of garbage or putrefaction. Most of contents of dump is combustible with the exception of scrap metal and a waste material from the plant which is possibly material unsuitable for the process of paper making. This waste (from observation) is made up of waste paper, rags, and possibly other materials used in the process. No chemical odors present at time of visit. No houses in immediate vicinity of dump.

RECOMMENDATIONS

That the Health Department be notified at time the dump is causing the nuisance so that a representative may be able to trace it to its source.

John R. Kennedy, Sanitarian
Butler County Health Department

JRK:bg

Telephone Conversation with Mr. Kennedy 8-21-59.
The state burning occurs late in evening. Trash
from Deepport sub-division. Smoke is irritating.
Possibly material unknown to us dumped in pit & burned.
Have Mr. Kennedy My telephone #. Will call him
when burning is in progress.
